### Green efficiency and convenience in a comforting classic

Nothing soothes the soul quite like an authentic log fire—and nothing evokes sophistication and comfort quite like the popular Mendota DXV series gas fireplace. With an efficient new BurnGreen™ system, the DXV35 and DXV45 DT3 fireplaces will warm your home with uncompromising performance and seamless elegance. And the best part? With plenty of stylish options for doors, fronts and finishes, you can create a Mendota design that's yours—and yours alone. Trends may come and go, but classic design and modern efficiency never go out of style.

# Green efficiency for a timeless favorite

New accent lighting • New burner system • New logs • New optional remote control

The popular Mendota DXV35 and DXV45 fireplaces with their beautiful, award-winning log fires and their exciting array of elegant fronts are now combined with the convenience and environmentally friendly features of the BurnGreen™ burner/remote control system—so you'll never have to compromise style for function.

## A smarter, greener family fireplace

Mendota DXV35 DT3 and DXV45 DT3 fireplaces with the BurnGreen™ burner system are ANSI/AGA certified high efficiency gas wall furnaces. BurnGreen™ means burning smarter, giving you choices to conserve fuel and help the environment. The Mendota BurnGreen™ burner system with

optional remote control lets you turn the burners and the pilot on and off, adjust the heat and blower output—and even turn off the rear burner on mild days. You can also control room temperature using the optional remote control's digital thermostat. And, it's all done with the touch of a button.

## Design your perfect fireplace online

A big part of the Mendota fireplace experience is choosing just the right front and accessories. The excitement of seeing how their shape and color come together to transform your room and enhance your unique style.
